

INFINITIVE Poli-Seeker

Policy Management Re-Imagined

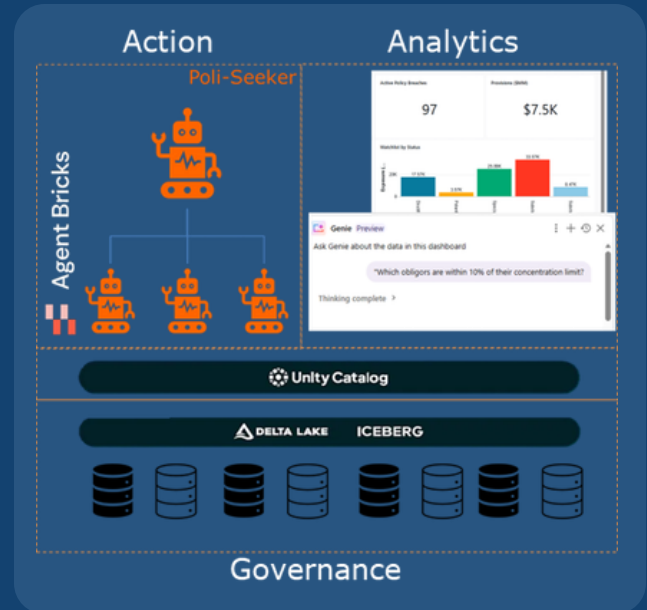

Business Challenge

- ❖ **High-effort policy maintenance** requires regular care and feeding.
- ❖ Conflicting or outdated policies create **compliance and risk exposure**.
- ❖ Employees **waste time searching** across disparate sources for accurate policy information.
- ❖ Organizations struggle to **maintain peace of mind** around data security and governance.

Solution Summary

Poli-Seeker is Infnitive's AI-powered policy intelligence agent that enables organizations to search, analyze, measure, and act on policy documentation across multiple sources — **reducing search time, surfacing conflicts, and delivering governed insights** at scale.
